hm 3800 DCT-V

BUILT LIKE A LEGEND.
**ENGINEERED FOR
THE FUTURE.**

WHEN PROVEN STRENGTH MEETS STATE-OF-THE-ART TECHNOLOGY.

The **hm 3800 DCT-V** brings the best qualities of classic hawo band sealers to a new generation. Its exceptionally robust mechanical design and high-performance heating technology are engineered for continuous high-volume operation. A modern touchscreen interface, advanced electronics and software, and hawo's contemporary design language make it ready to meet today's demands.

PROCESS STABILITY YOU CAN RELY ON.

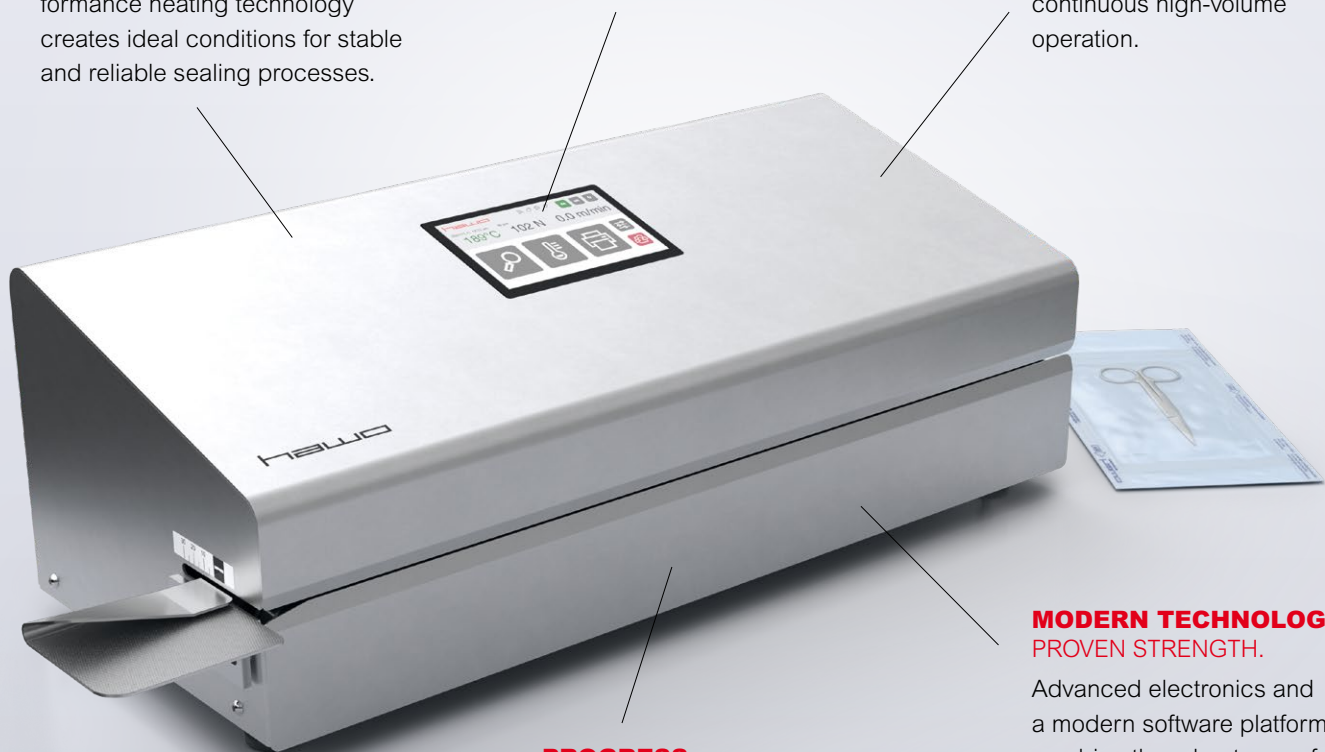

The combination of robust mechanical design and high-performance heating technology creates ideal conditions for stable and reliable sealing processes.

INTUITIVE FROM THE FIRST TOUCH.

The integrated touchscreen makes operation clear, convenient and intuitive.

READY FOR HIGH THROUGHPUT.

The extended heating unit is specifically designed for continuous high-volume operation.

PROGRESS TAKES SHAPE.

With its clean, contemporary design language, the hm 3800 DCT-V fits seamlessly into hawo's current product range.

MODERN TECHNOLOGY. PROVEN STRENGTH.

Advanced electronics and a modern software platform combine the robustness of classic hawo machines with next-generation functionality.
