

HYGIENE STANDARD ACTIONS FOR YOUR HEALTH

In order to ensure the safety of our employees and also our guests, we have developed a comprehensive hygiene programme: the **hawa Hygiene Standard - Actions for your and our Health.**

We have taken numerous measures within the framework of this hawa hygiene standard, so that we can guarantee a safe visit to our company. Please support us in this and also observe the general hygiene recommendations.

PRODUCTS

Our products are safe: In our logistic department we work according to the strictest hygiene rules and took preventive actions early on. For example, the products are fully disinfected before shipping or supply. The products in our showroom are also regularly disinfected.

EMPLOYEES

Thanks to comprehensive training and up-to-date information, our employees have the necessary knowledge to advise you safely and in the usual hawa quality. We also follow a consistent safety and hygiene concept for the employees themselves.

MASKS

For mutual protection, all our employees wear masks during consultations and training. Please also wear a mask. If you do not have your own mask, we will be happy to provide you with one.

HYGIENE

We have once again increased our daily cleaning frequency and added additional disinfection tours at the most heavily frequented places such as e. g. toilets and elevators. In all departments, sufficient disinfectant is available for you and our employees.

DISTANCE

Please keep a safety distance of at least 1.5 m from the next person. In our reception area we have installed additional transparent safety partitions.

NUMBER OF VISITORS

Even though our showroom and training room offers a lot of space, we temporarily limit the number of people attending training courses and consultations so that we can maintain a safety distance of at least 1.5 m everywhere.

Stay healthy!
